

# OPERATING REGULATIONS JHLAVA LINE

Overview of the types of waste for which the facility is intended

## VALIDITY OF THE OPERATING REGULATIONS

The validity of the Operating Regulations in question is given by the validity of consent (within the meaning of Section 14(1) of Act No. 185/2001 Coll., on waste) granted by decision of the competent regional authority – specifically of the Regional Authority of the Vysočina Region. The Operating Regulations apply to all workers of the facility.

### **Overview of the types of waste for which the facility is intended**

Wastes are accepted into the facility from waste producers but not from citizens.

List of types of waste that will be accepted into the facility, but that will not be processed in the facility and will be further transferred to an authorised person for subsequent use:

Code	Category	Name of waste type
08 03 17	H	Waste printing toner containing dangerous substances
08 03 18	O	Waste printing toner other than those mentioned in 08 03 17
10 02 10	O	Mill scales
12 01 01	O	Ferrous metal filings and turnings
12 01 03	O	Non-ferrous metal filings and turnings
12 01 13	O	Welding wastes
15 01 01	O	Paper and cardboard packaging
15 01 02	O	Plastic packaging
15 01 03	O	Wooden packaging
15 01 04	O	Metallic packaging
15 01 05	O	Composite packaging
15 01 06	O	Mixed packaging
16 01 17	O	Ferrous metal
16 01 18	O	Non-ferrous metal
16 01 19	O	Plastic
16 01 22	O	Components not otherwise specified
16 06 01	H	Lead batteries
16 08 01	O	Spent catalysts containing gold, silver, rhenium, rhodium, palladium, iridium or platinum (except 16 08 07)
17 04 01	O	Copper, bronze, brass
17 04 02	O	Aluminium
17 04 03	O	Lead
17 04 04	O	Zinc
17 04 05	O	Iron and steel
17 04 06	O	Tin
17 04 07	O	Mixed metals
17 04 11	O	Cables other than those mentioned in 17 04 10
19 12 02	O	Ferrous metal
19 12 03	O	Non-ferrous metal
19 12 04	O	Plastic and rubber
19 12 12	O	Other wastes (including mixtures of materials) from mechanical treatment of wastes other than those mentioned in 19 12 11
20 01 01	O	Paper and cardboard

List of types of waste that will be accepted into the facility and will be further processed directly in the facility:

Code	Category	Name of waste type
02 01 10	O	Waste metal
16 02 13	H	Discarded equipment containing hazardous components other than those mentioned in 16 02 09 to 16 02 12
16 02 14	O	Discarded equipment other than those mentioned in 16 02 09 to 16 02 13
16 02 15	H	Hazardous components removed from discarded equipment
16 02 16	O	Components removed from discarded equipment other than those mentioned in 16 02 15
19 10 01	O	Iron and steel waste
19 10 02	O	Non-ferrous waste
19 10 04	O	Fluff-light fraction and dust other than those mentioned in 19 10 03
19 10 06	O	Other fractions other than those mentioned in 19 10 05
19 12 01	O	Paper and cardboard
19 12 02	O	Ferrous metal
19 12 03	O	Non-ferrous metal
19 12 04	O	Plastic and rubber
19 12 05	O	Glass
19 12 07	O	Wood other than that mentioned in 19 12 06
19 12 11	H	Other wastes (including mixtures of materials) from mechanical treatment of waste containing dangerous substances
19 12 12	O	Other wastes (including mixtures of materials) from mechanical treatment of wastes other than those mentioned in 19 12 11
20 01 35	H	Discarded electrical and electronic equipment other than those mentioned in 20 01 21 and 20 01 23 containing hazardous components
20 01 36	O	Discarded electrical and electronic equipment other than those mentioned in 20 01 21, 20 01 23 and 20 01 35
20 01 39	O	Plastics
20 01 40	O	Metals

*Electrical wastes and electrical equipment listed in Annex No. 7 to Part I of Act No. 185/2001 Coll., on waste, as amended, are accepted into the processing facility.*

List of types of waste that will be accepted into the facility as part of separate collection, but they will not be processed in the facility and will be further transferred to an authorised person for subsequent use:

Code	Category	Name of waste type
16 02 11	H	Discarded equipment containing chlorofluorocarbons, HCFC, HFC
16 02 14	O	Discarded equipment other than those mentioned in 16 02 09 to 16 02 13
16 06 02	H	Ni-Cd batteries
16 06 04	O	Alkaline batteries (except 16 06 03)
16 06 05	O	Other batteries and accumulators
20 01 21	H	Fluorescent tubes and other mercury-containing waste
20 01 23	H	Discarded equipment containing chlorofluorocarbons
20 01 33	H	Batteries and accumulators included in 16 06 01, 16 06 02 or 16 06 03 and unsorted batteries and accumulators containing these batteries
20 01 34	O	Batteries and accumulators other than those mentioned in 20 01 33
20 01 36	O	Discarded electrical and electronic equipment other than those mentioned in 20 01 21, 20 01 23 and 20 01 35

Containers or similar collection means of collective systems for the separate collection of wastes from waste producers are located within the facility.

## WASTES PRODUCED IN THE FACILITY

Individual types of both metallic and non-metallic waste, in particular wastes of group 19, subgroup 12 but also other, not specified types of waste of the Other and Hazardous category, which are subsequently transferred only to authorised persons for further use of the waste that will assure maximum material utilisation of such waste pursuant to Annex 14 to the Act on Waste, are produced during the processing of electrical waste. The remaining wastes generated by the operation of the facility (these are not individual types of electrical waste generated during processing) are contractually secured by transfer to an authorised person for further use or removal thereof. Hazardous wastes will be labelled in accordance with applicable legislation.

## PURPOSE OF THE FACILITY

The facility is intended for the utilisation of the abovementioned types of waste and electrical wastes of the "O" and "H" categories by methods R3, R4, R5, and R12.
